

Table of Contents

- 1 Introduction: what is biomedical engineering?
- Part I Molecular and Cellular Principles
- 2 Biomolecular principles
- 3 Biomolecular principles: nucleic acids
- 4 Biomolecular principles: proteins
- 5 Cellular principles
- Part II Physiological Principles
- 6 Communication systems in the body
- 7 Engineering balances: respiration and digestion
- 8 Circulation
- 9 Removal of molecules from the body
- Part III Biomedical Engineering
- 10 Biomechanics
- 11 Bioinstrumentation
- 12 Bioimaging
- 13 Biomolecular engineering I: biotechnology
- 14 Biomolecular engineering II: engineering of immunity
- 15 Biomaterials and artificial organs
- 16 Biomedical engineering and cancer
