

Table of Contents

- Preface p. ix
- Abbreviations p. xi
- Part 1 Principles of Mechanical Ventilation p. 1
- Chapter 1 Physiologic Effects of Mechanical Ventilation p. 1
- Chapter 3 Ventilator-Induced Lung Injury p. 20
- Chapter 4 Ventilator-Associated Events and Ventilator-Associated Pneumonia p. 30
- Chapter 2 Physiologic Goals of Mechanical Ventilation p. 12
- Chapter 9 Flow Waveforms and Inspiratory: Expiratory Relationship p. 87
- Chapter 10 High-Frequency Ventilation p. 100
- Chapter 11 Noninvasive Respiratory Support p. 108
- Chapter 12 Humidification and the Ventilator Circuit p. 122
- Chapter 13 $P_{F_{O_2}}$, Positive End-Expiratory Pressure, and Mean Airway Pressure p. 133
- Chapter 14 Initial Settings for Mechanical Ventilation p. 145
- Chapter 15 Patient-Ventilator Interaction p. 153
- Part 2 Ventilator Management p. 181
- Chapter 17 Acute Respiratory Distress Syndrome p. 181
- Chapter 18 Obstructive Lung Disease p. 195
- Chapter 19 Chest Trauma p. 208
- Chapter 20 Head Injury p. 216
- Chapter 5 Ventilator Mode Classification p. 40
- Chapter 7 Pressure and Volume Ventilation p. 61
- Chapter 8 Advanced Modes of Mechanical Ventilation p. 73
- Chapter 6 Traditional Modes of Mechanical Ventilation p. 50
- Chapter 16 Ventilator Liberation p. 167
- Chapter 21 Postoperative Mechanical Ventilation p. 227
- Chapter 22 Neuromuscular Disease p. 235
- Chapter 23 Cardiac Failure p. 245
- Chapter 24 Burns and Inhalation Injury p. 252
- Chapter 25 Bronchopleural Fistula p. 262
- Chapter 26 Drug Overdose p. 270
- Chapter 27 Ventilatory Management of the Obese Patient p. 275
- Part 3 Monitoring During Mechanical Ventilation p. 285
- Chapter 28 Blood Gases p. 285
- Chapter 29 Pulse Oximetry, Capnography, and Transcutaneous Monitoring p. 300
- Chapter 30 Hemodynamic Monitoring p. 312
- Chapter 31 Basic Pulmonary Mechanics During Mechanical Ventilation p. 322
- Chapter 32 Waveforms: Scalars and Loops p. 331
- Chapter 33 Esophageal Manometry and Bedside Imaging During Mechanical Ventilation p. 343
- Chapter 34 Nutritional Assessment p. 355
- Part 4 Topics Related to Mechanical Ventilation p. 365
- Chapter 35 Airway Management p. 365
- Chapter 36 Airway Clearance p. 375
- Chapter 37 Inhaled Drug Delivery p. 383

- Chapter 38 Emergency Ventilation and Ventilation in a Disaster p. 390
- Chapter 39 Mobilization and Portable Ventilation p. 400
- Chapter 40 Extracorporeal Life Support p. 406
- Index p. 415
