Preface p. xiii

Chapter 1 Managers: Key to Information Technology Results p. 1

What Is Information Technology? p. 4

The E-Borders Program p. 1

Why Managers Must Provide Leadership for Information Technology (IT) p. 1

Why Managers Must Understand IT p. 3

Personal IT p. 5

Group IT p. 6

Enterprise IT p. 7

The Role of Managers Vis-A-Vis IT p. 11

Identifying Appropriate IT Opportunities p. 12

Smooth Introduction and Adoption of IT p. 13

Ensuring That IT Risks Are Mitigated p. 18

What if Managers Do Not Participate in IT Projects? p. 19

Overview of Remaining Text p. 20

Chapter Summary p. 23

Discussion Questions p. 24

Action Needed p. 24

Web-Based Case p. 25

Key Terms p. 23

Case Study p. 25

Notes p. 28

Chapter 2 Strategic Planning p. 31

Apple's Innovative Business Strategy p. 31

Why Managers Must Understand the Relationship Between Strategic Planning and IT p. 33

Analyze Situation p. 35

Set Direction p. 37

Define Strategies p. 41

Deploy Plan p. 42

Setting the IT Organizational Strategy p. 43

Identifying IT Projects and Initiatives p. 45

Prioritizing IT Projects and Initiatives p. 46

Effective Strategic Planning: Chevron p. 47

Background p. 47

Situation Analysis p. 48

Set Direction p. 51

Define Strategies p. 52

Key Terms p. 57

Chapter Summary p. 57

Discussion Questions p. 57

Strategic Planning p. 33

Deploy Plan p. 52

Action Needed p. 58

Web-Based Case p. 59

Case Study p. 59

Notes p. 59

Chapter 3 Project Management p. 61

The BBC Digital Media Initiative p. 61

Why Managers Must Understand Project Management p. 63

What Is a Project? p. 64

Project Variables p. 64

What Is Project Management? p. 69

Project Management Knowledge Areas p. 69

Scope Management p. 70

Time Management p. 71

Cost Management p. 72

Quality Management p. 75

Human Resource Management p. 76

Communications Management p. 78

Risk Management p. 80

Procurement Management p. 83

Project Integration Management p. 85

Chapter Summary p. 87

Discussion Questions p. 88

Action Needed p. 89

Case Study p. 90

Notes p. 92

Key Terms p. 87

Web-Based Case p. 89

Chapter 4 Business Process and IT Outsourcing p. 95

Salesforce.com and Its Cloud-Based Success p. 95

Why Managers Must Understand Outsourcing p. 97

What Are Outsourcing and Offshore Outsourcing? p. 98

Why Do Organizations Outsource?	p. 99
Issues Associated with Outsourcing	p. 102
IT Outsourcing	p. 105
Public Cloud Computing	p. 105
Virtualization	p. 108
Autonomic Computing	p. 108
Private Cloud Computing	p. 109
Hybrid Cloud Computing	p. 109
Planning an Effective Outsourcing Process	p. 109
Establish a "Smart" Outsourcing Strategy	p. 111
Evaluate and Select Appropriate Activities and Projects for Outsourcing	p. 111
Evaluate and Select Appropriate Service Providers	p. 112
Evaluate Service Provider Locations	p. 113
Benchmark Existing Service Levels	p. 114
Define the Service-Level Agreement	p. 115
Develop an Outsourcing Contract	p. 116
Establish an Outsourcing Governance Process	p. 116
Measure and Evaluate Results	p. 117
Key Terms	p. 119
Chapter Summary	p. 119
Discussion Questions	p. 120
Action Needed	p. 121
Web-Based Case	p. 121
Case Study	p. 122
Notes	p. 125

Chapter 5 Corporate and IT Governance p. 129

Credit and Debit Card Theft p. 129

Why Managers Must Get Involved in IT Governance p. 129

What Is IT Governance? p. 131

Ensuring That an Organization Achieves Good Value from Its Investments in IT p. 133

Mitigating IT-Related Risks p. 134

IT Governance Frameworks p. 137

IT Infrastructure Library (ITIL) p. 139

Control Objectives for Information and Related Technology (GOBIT) p. 140

Using PDGA and an IT Governance Framework p. 142

Business Continuity Planning p. 144

Process for Developing a Disaster Recovery Plan p. 148

Key Terms p. 153

Chapter Summary p. 153

Web-Based Case p. 155

Case Study p. 155

Notes p. 158

Why Managers Must Understand IT Governance p. 137

Discussion Questions p. 154

Action Needed p. 154

Chapter 6 Collaboration Tools p. 161

Eagle Investment Employs Unified Communications p. 161

Why Managers Must Understand Collaboration Tools p. 164

Collaboration Tools p. 164

Electronic Bulletin Boards p. 164

Blogs	p. 165
Calendaring Software	p. 168
Desktop Sharing	p. 168
Instant Messaging (IM)	p. 169
Podcasts	p. 170
Really Simple Syndication (RSS)	p. 171
Shared Workspace	p. 171
Online Project Management	p. 171
Web Conferencing, Webinars, and Webcasts	p. 172
Wikis	p. 175
Action Needed	p. 180
Presence Information	p. 176
Discussion Questions	p. 180
Unified Communications (UC)	p. 176
Key Terms	p. 179
Chapter Summary	p. 179
Case Study	p. 181
Chapter 7 E-commerce	p. 185
Forms of E-Commerce	p. 189
Business-to-Business (B2B) E-Commerce	p. 189
Business-to-Consumer (B2C) E-Commerce	p. 192
Consumer-to-Consumer (C2C) E-Commerce	p. 194
Web-Based Case	p. 181
Why Managers Must Understand E-Commerce	p. 187
Notes	p. 183

Alibaba Opening the Door to the Largest Domestic Retail Market in the World	p. 185
E-Government Commerce	p. 194
Mobile Commerce	p. 196
E-Commerce Critical Success Factors	p. 198
Identifying Appropriate E-Commerce Opportunities	p. 198
Acquiring Necessary Organizational Capabilities	p. 198
Directing Potential Customers to Your Site	p. 200
Providing a Good Customer Online Experience	p. 201
Providing an Incentive for Customers to Purchase and Return in the Future	p. 201
Providing Timely, Efficient Order Fulfillment	p. 202
Offering a Variety of Easy and Secure Payment Methods	p. 203
Handling Returns Smoothly and Efficiently	p. 205
Providing Effective Customer Service	p. 205
Advantages of E-Commerce	p. 206
Issues Associated with E-Commerce	p. 207
Difficulty Integrating Web and Non-Web Sales and Inventory Data	p. 208
Key Terms	p. 210
Chapter Summary	p. 210
Discussion Questions	p. 211
Action Needed	p. 212
Web-Based Case	p. 212
Case Study	p. 213
Notes	p. 215
Chapter 8 Enterprise Systems	p. 219
Customers Fear That Their Personal Data May Be Stolen or Used Inappropriately	p. 207

Cultural and Linguistic Obstacles p. 208

What Is an Enterprise System? p. 222

Enterprise Resource Planning p. 222

Benefits of Using an ERP System p. 225

Tier I, Tier II, and Tier III ERP Vendors p. 228

ERP Customization p. 229

Supply Chain Management (SCM) p. 230

Customer Relationship Management p. 232

Product Life Cycle Management (PLM) p. 236

Hosted Software Model for Enterprise Software p. 241

Key Terms p. 244

Chapter Summary p. 244

Discussion Questions p. 245

Action Needed p. 246

Web-Based Case p. 246

Case Study p. 247

Notes p. 249

Chapter 9 Business Intelligence and Big Data p. 253

Amazon: Beating the In-Store Advantage with Business Intelligence p. 253

What Is Business Intelligence? p. 255

Data Warehouse/Data Marts p. 256

Big Data p. 258

Spreadsheets p. 264

Coca-Cola: Global Reach Through Local Distribution p. 219

Avoiding Enterprise Systems Failures p. 240

Business Intelligence Tools p. 263

Reporting and Querying Tools p. 265

Online Analytical Processing (OLAP) p. 265

Drill-Down Analysis p. 266

Data Mining p. 267

Dashboards p. 269

Data Governance p. 269

Challenges of Big Data p. 275

Key Terms p. 275

Chapter Summary p. 276

Discussion Questions p. 277

Action Needed p. 277

Web-Based Case p. 277

Case Study p. 278

Notes p. 281

Chapter 10 Knowledge Management p. 285

How Knowledge Management Is Helping Nelnet Service Student Loans p. 285

What Is Knowledge Management (KM)? p. 287

Knowledge Management Applications and Associated Benefits p. 289

Best Practices for Selling and Implementing a KM Project p. 290

Technologies That Support KM p. 293

Communities of Practice p. 293

Social Network Analysis (SNA) p. 293

Web 2.0 Technologies p. 295

Business Rules Management Systems p. 297

Enterprise Search Software p. 300

Key Terms p. 300

Chapter Summary p. 300

Discussion Questions p. 301

Action Needed p. 302

Web-Based Case p. 302

Case Study p. 302

Notes p. 305

Chapter 11 Cybercrime and IT Security p. 307

Health Data Cybertheft: The Plunder of Anthem p. 307

Why Managers Must Understand IT Security p. 309

Why Computer Incidents Are So Prevalent p. 309

Types of Exploits p. 313

Federal Laws for Prosecuting Computer Attacks p. 324

Implementing Trustworthy Computing p. 325

Risk Assessment p. 326

Establishing a Security Policy p. 327

Educating Employees and Contract Workers p. 329

Prevention p. 329

Detection p. 333

Response p. 333

Key Terms p. 339

Chapter Summary p. 339

Discussion Questions p. 340

Action Needed p. 341

Web-Based Case p. 342

Case Study p. 342

Notes p. 345

Chapter 12 Ethical, Legal, and Social Issues of Information Technology p. 349

Artificial Intelligence: Robots on the Rise p. 349

What Is Ethics? p. 352

The Difference Between Morals, Ethics, and Laws p. 352

Including Ethical Considerations in Decision Making p. 353

Privacy p. 355

Data Brokers p. 360

Treating Customer Data Responsibly p. 360

Workplace Monitoring p. 362

Social Networking and Privacy p. 364

Internet Censorship p. 367

Internet Access p. 368

The Digital Divide p. 369

E-Rate Program p. 370

Net Neutrality p. 370

Internet of Things p. 371

Key Terms p. 376

Chapter Summary p. 376

Discussion Questions p. 378

Action Needed p. 378

Web-Based Case p. 379

Case Study p. 379

Notes p. 382

Glossary p. 387

Index p. 401
