

## Table of contents provided by Syndetics

- **Intelligent Synthesis of Smart Ceramic Materials**
- **Functionally Graded Polymer Blend**
- **Structural Application of Smart Materials**
- **Composite Systems Modeling--Adaptive Structures: Modeling and Applications and Hybrid Composites Hybrid Composites**
- **Priya Design of an Active Composite Wing Spar with Bending&Torsion Coupling**
- **Carlos Silva, Bruno Rocha, and Afzal Suleman Ferromagnetic Shape Memory Alloy Actuators**
- **Aircraft Applications of Smart Structures**
- **Smart Battery Materials**
- **Piezoelectric and Electrostrictive Ceramics Transducers and Actuators Smart Ferroelectric Ceramics for Transducer Applications**
- **Smart Ceramics: Transducers, Sensors, and Actuators**
- **Noncontact Ultrasonic Testing and Analysis of Materials**
- **Chitosan-Based Gels and Hydrogels Chitosan-Based Gels**
- **Chitosan-Based Hydrogels in Biomedical and Pharmaceutical Sciences**
- **Films, Coatings, Adhesives, Polymers, and CMR Materials**
- **Oxides as Potential Thermoelectric Materials**
- **Electrically Conductive Adhesives**
- **Electrochromic Sol&Gel Coatings**
- **Cure and Health Monitoring Tatsuro Kosaka**
- **Drug Delivery Systems Smart Drug Delivery Systems**
- **Flip-Chip Underfill: Materials, Process, and Reliability**
- **Drug Delivery Systems: Smart Polymers**
- **Joseph Kost**
- **Fiber Optic Systems: Optical Fiber Sensor Technology and Windows Introduction and Application of Fiber Optic Sensors**
- **Dielectric Cure Monitoring of Polymers, Composites, and Coatings: Synthesis, Cure, Fabrication, and Aging**
- **Magnetorheological Fluids**
- **Intelligent Processing of Materials**
- **Magnets, Magnetic, and Magnetostrictive Materials Magnets, Organic/Polymer**
- **Powder Metallurgy Used for a Giant Magnetostrictive Material Actuator Sensor**
- **Hiroshi Eda and Hirotaka Ojima**
- **Shape Memory Alloys and Effects: Types, Functions, Modeling, and Applications Magnetically Controlled Shape Memory Alloys**
- **Shape Memory Alloys in Micro- and Nanoscale Engineering Applications**
- **Yves Bellouard Mathematical Models for Shape Memory Materials**
