

## Table of Contents

- Preface to the Second Edition p. xv
- Acknowledgments p. xvii
- Stethoscopes p. 3
- Microscopes p. 5
- Scope of This Book p. xix
- Chapter 1 Introduction p. 1
- History of Medical Devices p. 1
- Characteristics of Human Anatomy and Physiology That Relate to Medical Devices p. 15
- Electrical Signals and Conductivity p. 15
- Circulation p. 16
- Blood p. 21
- Surgery p. 6
- The Role of Biomedical Engineering Technologists in Health Care p. 8
- Defibrillators p. 8
- Respiration p. 22
- Chemical Balances p. 23
- Densities p. 24
- Temperature p. 24
- Hypothermia p. 26
- Hyperthermia p. 26
- Summary p. 27
- Questions p. 27
- Chapter 2 Diagnostic Devices: Part I p. 29
- Physiological Monitoring Systems p. 29
- Overview p. 29
- Integration and Connectivity p. 32
- Central Stations p. 33
- Telemetry p. 35
- The Heart p. 38
- Electrocardiogram (ECG) Monitors and Machines p. 38
- ECG Electrodes p. 40
- Amplifiers p. 41
- Interference p. 41
- Internally Generated Artifacts p. 42
- Externally Generated Artifacts p. 42
- Filters p. 42
- Lead Arrangements p. 43
- Patient Isolation p. 44
- Digital Systems p. 45
- Waveform Analysis and Measurements p. 45
- Alarms p. 46
- Waveform/Event Storage p. 46
- Arrhythmia Analysis p. 46

- Types of Arrhythmias p. 47
- Stress Testing p. 49
- Exercise Component p. 49
- Interface p. 51
- Controller p. 51
- ECG Monitor p. 52
- Ambulatory ECG Recorders/Analysis Systems p. 53
- Cardiac Output p. 54
- Summary p. 55
- Questions p. 55
- Chapter 3 Diagnostic Devices: Part II p. 57
  - Circulatory System and Blood p. 57
    - Introduction p. 57
    - Hypertension p. 57
    - Hypotension p. 58
    - Blood Pressure Measurement p. 58
    - Invasive Blood Pressure Monitors p. 58
    - Pressure Transducers p. 58
    - Noninvasive Blood Pressure Monitors p. 59
    - Pressure Measurement Cycle p. 60
    - Pulse Oximeters p. 61
  - Blood Chemistry Analyzers p. 66
  - Doppler Blood Flow Detectors p. 69
  - Further Notes p. 60
  - Transcutaneous CO<sub>2</sub> Analyzers p. 64
  - Glucometers p. 67
  - Respiratory System p. 71
    - Pulmonary Function Analyzers p. 71
      - Incentive Spirometer p. 73
      - Graphing Spirometer p. 73
      - Pulmonary Function Analyzer p. 73
    - Respiration Monitors p. 73
    - Capnography Monitors p. 75
    - Oxygen Analyzers p. 75
  - Bronchoscopy Systems p. 77
  - Nervous System p. 78
    - Electroencephalogram (EEG) Monitors and Machines p. 79
    - Bispectral Index System (BIS™) Monitors p. 81
    - Muscle/Nerve Stimulators p. 81
  - Summary p. 82
  - Questions p. 82
- Chapter 4 Diagnostic Devices: Part III p. 85
  - Digestive System p. 85
    - Endoscopes p. 85
      - General p. 85
      - Types of Endoscopes p. 85

- Rigid Endoscopes p. 85
- Flexible Endoscopes p. 87
- Other System Components p. 88
- Video Recorder/Storage p. 92
- Video Monitor p. 92
- Insufflator p. 93
- Irrigation and Suction p. 93
- Tools p. 93
- Sensory Organs p. 94
- Oto/Laryngo/Ophthalmoscopes p. 94
- Otoscope p. 95
- Laryngoscope p. 95
- Ophthalmoscope p. 95
- Slit Lamps p. 97
- Reproduction p. 97
- Fetal Heart Detectors p. 97
- Fetal Monitors p. 99
- Infant Scales p. 101
- APGAR Timers p. 101
- Skin, Bone, Muscle, Miscellaneous p. 103
- Thermometers p. 103
- Electronic Probe Thermometers p. 104
- Tympanic Thermometers p. 105
- Densitometers p. 106
- Arthroscopy Systems p. 106
- Chapter Summary p. 107
- Questions p. 107
- Chapter 5 Diagnostic Imaging p. 109
- Introduction p. 109
- X-Rays p. 109
- History p. 109
- Physics p. 109
- Definitions of Units p. 110
- Detectors p. 110
- Effects and Dosage Limits p. 111
- X-Ray Safety p. 111
- X-Ray Procedures p. 112
- Dental X-Rays p. 112
- General Purpose X-Ray Rooms p. 112
- Mammography p. 113
- Computed (Axial) Tomography Scanners p. 113
- Magnetic Resonance Imaging Scanners p. 115
- Positron Emission Tomography p. 119
- Diagnostic Ultrasound p. 121
- Picture Archiving and Communication Systems p. 122
- Summary p. 124

- Questions p. 124
- Chapter 6 Treatment Devices: Part I p. 125
- Heart p. 125
- Defibrillators p. 125
- History p. 125
- Theory of Operation p. 125
- Function p. 127
- Defibrillator Types p. 131
- Pacemakers p. 136
- History p. 136
- Theory of Operation p. 136
- Construction p. 138
- Application p. 138
- External Pacemakers p. 138
- Circulatory System and Blood p. 139
- Artificial Hearts p. 139
- Ventricular Assist Devices p. 139
- Intraaortic Balloon Pumps p. 140
- Heart-Lung Machines p. 140
- Sequential Compression Devices p. 140
- Automatic Tourniquets p. 142
- Blood Warmers p. 142
- Intravenous Fluid Administration Pumps p. 144
- Pressure Infusers p. 144
- Fluid Controllers p. 145
- Syringe Pumps p. 145
- Piston Pumps p. 145
- Peristaltic Pumps p. 145
- Patient-Controlled Analgesia (PCA) Pumps p. 147
- Safety Features of IV Pumps p. 153
- Respiratory System p. 154
- Ventilators p. 154
- CPAP/BiPAP Units p. 161
- Oxygen Concentrators p. 161
- Humidifiers p. 162
- Summary p. 163
- Questions p. 163
- Chapter 7 Treatment Devices: Part II p. 165
- Nervous System p. 165
- Anesthesia p. 165
- Anesthetic Agents p. 165
- Anesthetic Machines p. 166
- Anesthesia Vaporizers p. 166
- Anesthetic Gas Monitors p. 167
- Electroconvulsive Therapy Machines p. 168
- Digestive System p. 175

- Feeding Pumps p. 175
- Renal System p. 178
- Hemodialysis p. 178
- Water Purification System p. 178
- Access Point p. 178
- Monitoring Components p. 179
- Dialyzer p. 180
- Peritoneal Dialysis p. 180
- Lithotriptors p. 181
- Sensory Organs p. 183
- Phacoemulsifiers p. 183
- Ophthalmic Lasers p. 185
- Summary p. 189
- Questions p. 189
- Chapter 8 Treatment Devices: Part III p. 191
- Reproduction p. 191
- Bilirubin Therapy Systems p. 191
- Infant Incubators p. 191
- Infant Resuscitators p. 196
- Nitrous Oxide Units p. 199
- Skin, Bone, Muscle, and Miscellaneous p. 200
- Electrosurgery Machines p. 200
- Monopolar Electrosurgery p. 202
- Bipolar Electrosurgery p. 205
- Surgical Lasers p. 206
- Carbon Dioxide Lasers p. 207
- Neodymium-Doped Yttrium Aluminium Garnet (Nd:YAG) Lasers p. 208
- Argon Lasers p. 208
- Excimer Lasers p. 208
- Laser Safety p. 208
- Surgical Ultrasound p. 208
- Cryosurgery Units p. 208
- Microscopes p. 209
- Sterilizers p. 212
- Gas Sterilizers p. 212
- Heat Sterilizers p. 214
- Liquid Sterilizers p. 214
- Physiotherapy Equipment p. 214
- Continuous Passive Motion p. 215
- Pain Relief p. 215
- Promotion of Healing p. 219
- Summary p. 220
- Questions p. 221
- Chapter 9 Biomedical Engineering Technologist (BMET) Work p. 223
- Overview p. 223
- Electrical Safety p. 223

- Rationale p. 224
- Testing Methods p. 224
- Other Safety Considerations p. 229
- Fire Safety p. 229
- Chemical Safety p. 230
- Mechanical Safety p. 230
- Infection Control p. 230
- Sharps Safety p. 231
- Performance Assurance p. 233
- Troubleshooting Techniques p. 237
- Electrostatic Discharge p. 242
- Summary p. 242
- Questions p. 242
- Chapter 10 Testers and Tools p. 245
- Introduction p. 245
- General Test Equipment p. 245
- Digital Multimeters p. 245
- Oscilloscopes p. 245
- Other Test Equipment p. 250
- Specialized Biomedical Test Equipment p. 250
- Electrosurgery Unit (ESU) Analyzers p. 250
- Infusion Device Analyzers p. 254
- Physiological Simulators p. 255
- Noninvasive Blood Pressure (NIBP) Analyzers p. 258
- Ventilator Analyzers p. 259
- Incubator Analyzers p. 261
- SpO<sub>2</sub> Analyzers p. 262
- Ultrasound Analyzers p. 263
- Defibrillator Analyzers p. 264
- Pacemaker Analyzers p. 265
- Specialized Calibration and Testing Devices p. 266
- Tools p. 267
- General p. 267
- Specialized Tools and Components p. 269
- Power Tools p. 270
- Soldering p. 272
- Other p. 273
- Summary p. 275
- Questions p. 276
- Chapter 11 Batteries, Radiation, and Computers p. 277
- Batteries p. 277
- Nonrechargeable Batteries p. 277
- Alkaline p. 277
- Mercury p. 278
- Zinc/Air p. 278
- Rechargeable Batteries p. 278

- Lithium or LiIon p. 278
- Nickel Metal Hydride or NiMH p. 278
- Nickel Cadmium or NiCad, NiCd p. 279
- Lead Acid p. 279
- Battery Analyzers p. 281
- Battery Disposal p. 282
- Electromagnetic Radiation p. 282
- Digital Electronics p. 283
- Introduction p. 283
- Digital Signals p. 283
- Binary Numbers p. 284
- Analog-to-Digital Conversion p. 284
- Microprocessors p. 285
- Computers and Networks p. 285
- Summary p. 287
- Questions p. 287
- Chapter 12 Technology Management p. 289
- General Considerations p. 289
- Planning p. 289
- Software p. 289
- Appendix A Normal Values p. 291
- Appendix B Regulations and Standards p. 295
- Appendix C Biomedical Engineering Technology Programs in the United States and Canada p. 299
- Appendix D Biomedical Associations p. 309
- Appendix E Devices and Manufacturers p. 315
- Appendix F Test Equipment Manufacturers p. 317
- Appendix G Bibliography and Internet Resources p. 319
- Index p. 323
