

## Table of Contents

- List of Contributors
- Preface
- How to Use the Corrosion Handbook
- Potassium Hydroxide P. Drodten and D. Schedlitzki and R. Bender
- A Metallic materials
- Aluminum and aluminum alloys, copper and copper alloys, iron, iron-based alloys and steels, nickel and nickel alloys, titanium and titanium alloys, zinc cadmium and their alloys
- B Non-metallic inorganic materials
- Carbon and graphite, binders for building materials, glass, quartz ware and quartz glass, enamel, oxide ceramic materials, metal ceramic materials
- C Organic materials/plastics
- Thermoplastics, thermosetting plastics, elastomers, duroplasts
- D Materials with special properties
- Coatings and linings, seals and packings, composite materials
- E Materials recommendations
- Bibliography
