Part I MICROBIOLOGY AND FOOD QUALITY

1. Microbiology

Introduction

Common Food-Borne Microorganisms —Viruses, Bacteria, Fungi and Parasites

Characteristics of Microorganisms

Growth of Bacteria

Factors Affecting Growth of Microbes

Control of Microbial Growth in Foods

Beneficial Role of Microorganisms in Food

Summary

Key Terms

Review Questions

2. Food Contamination and Spoilage

Introduction

Types of Contaminants in Food

Natural Toxins

Toxic Metals and Chemicals

Pesticide Residues

Presence of Extraneous Material

Residue from Processing and Packaging Material

Reasons for Food Spoilage

Criteria for Judging whether Food is Fit for Consumption

Classification of Food on the Basis of Shelf Life

Conditions that Could Lead to Food Spoilage

Signs of Spoilage in Fresh, Dry and Preserved Foods

Summary

Key Terms

Review Questions

3. Food Preservation

Introduction

Basic Principles of Food Preservation

Methods of Food Preservation

Food Additives

Summary

Key Terms

Review Questions

4. Food-Borne Diseases

Introduction

Diseases and their Classification

Mode of Transmission of Disease

Food-Borne Illness

Bacterial Food Poisonings or Intoxications

Bacterial Food Infections

Listeriosis

Viral Infections

Parasitic Infestations

Food Allergies

Control of Food-Borne Illnesses

Summary

Key Terms

Review Questions

Part II HYGIENIC FOODHANDLING

5. Purchase and Storage of Food

Introduction

Important Points to be Observed while Receiving and Inspecting Deliveries

Food Storage

General Guidelines for Food Storage

The Dry-Food Store

The Refrigerated Store

The Freezer Store

Storage of Specific Foods

Summary

Key Terms

Review Questions

6. Sanitary Procedures while Preparing, Holding, Serving and Displaying Food

Introduction

Procedures to Minimise Microbial Load

Preparation of Specific Foods

Common Faults in Food Preparation

Basic Rules to be Observed During Food Service

Special Rules for Dining Room Waiters and Busboys

Special Rules for Bartenders and Bar Waiters

Protective Display of Food

Protecting Foods in Cafeterias and Fast Food Counters

Single Service Items

Summary

Key Terms

Review Questions

7. Special Food Operations

Introduction

Mobile Food Units

Temporary Food-Service Establishments

Vending Machines

Outdoor Catering

Transport Catering

Street Foods

Street Side Foods and Diseases

Summary

Key Terms

Review Questions

Part III SANITATION OF PREMISES AND ENVIRONMENT

8. Location, Layout and Construction of Premises

Introduction

Layout of Premises

Building Interiors

Ventilation

Enconditioning

Lighting

Summary

Key Terms

Review Questions

9. Equipment, Furniture and Fixtures

General Guidelines for Cleaning Equipment

Installation and Arrangement of Equipment

Food Preparation Surfaces

Materials Used for Making Large and Small Equipments

Equipment Requiring Special Attention

Summary

Key Terms

Review Questions

10. Cleaning Procedures

Introduction

Cleaning and Sanitising

Necessity for an Efficient Cleaning Programme

Types of Soil, Water, Cleaning Agents and Equipments

Types of Cleaning Equipment—Manual and Mechanical

Three Methods to Wash, Rinse and Sanitise Food Contact Surfaces

Post Cleaning Storage

Dish Cloth

Cleaning of Premises and Surroundings

Summary

Key Terms

Review Questions

11. Pest Control

Introduction

Importance of Pest Control

Classification of Pests

Pesticides

Summary

Key Terms

Review Questions

12. Water Supply

Introduction

Sources

Contamination of Water

Hazards of Water Pollution

Purification

Criteria for Judging Water Quality

Water Quality Standards

Water Supply for Catering Establishments

Sewage and Contamination of Water Supply

Summary

Key Terms

Review Questions

13. Storage and Disposal of Waste

Introduction

Solid Wastes

Liquid Wastes or Sewage

Gaseous Wastes

Summary

Key Terms

Review Questions

14. Environmental Pollution

Introduction

Air Pollution

Indoor Air

Water Pollution

Pollution by Pesticide Residues

Soil Pollution

Solid Waste Pollution

E-Waste or Electronic Waste

Pollution by Radiation

Noise Pollution

Measures to Check Pollution

Summary

Key Terms

Review Questions

Part IV PERSONAL HYGIENE AND SAFETY

15. Personal Hygiene

Introduction

Necessity for Personal Hygiene

Health of Staff

Personal Appearance

Sanitary Practices

Habits

Protective Clothing

Importance of Rest, Exercise and Recreation

Summary

Key Terms

Review Questions

16. Safety at the Work Place

Introduction

Sanitation Training and Education

Who Should be Trained

What a Training Programme Should Include

Steps in Planning and Implementing a Training Programme

Employment Practice

Accidents and their Effect

How Accidents Take Place

Types of Accidents

Safety Instructions to Kitchen Staff

Summary

Key Terms

Review Questions

Part V: Regulatory Agencies

17. Food Laws and Regulations

Introduction

Regulatory Agencies

Control of Food Quality

The Food Safety and Standards Act, 2006

General Provisions as to Articles of Food

Provisions Relating to Import

Special Responsibilities for Food Safety

Enforcement of the Act

The Plastics Manufacture, Sale and Usage Rules, 1999

The Atomic Energy (Control of Irradiation of Food) Rules 1996

Local Health Authority

Summary

Key Terms

Review Questions

18. Quality and Food Standards

Introduction

Quality

Hazard Analysis And Critical Control Point (HACCP)

Steps in HACCP

Application Stages of HACCP

HACCP Benefits

Sanitation Risk Management (SRM)

Standards

ISO 9000 Quality Management Systems

ISO 14000 Environmental Management Systems

ISO 22000 Food Safety Management Systems

Summary

Key Terms

Review Questions

19. Recent Concerns

Introduction

Emerging Diseases

Genetically Modified Food

Food Labelling

New Trends in Food Packaging and Technology

Summary

Key Terms

Review Questions

Appendix 1 Case Studies

Appendix 2 Temperature Conversion

Appendix 3 Food Sanitation Checklist List
