

1. Contents
2. Foreword
3. Preface
4. Acknowledgments
5. Authors
6. Chapter 1: Introduction
7. Chapter 2: Mathematical Chemistry
8. Chapter 3: Graph Theory and Chemistry
9. Chapter 4: Characteristic Polynomial
10. Chapter 5: Structure–Activity
11. Chapter 6: Molecular Descriptors
12. Chapter 7: Partial Ordering
13. Chapter 8: Novel Molecular Matrices
14. Chapter 9: On Highly Similar Molecules
15. Chapter 10: Aromaticity Revisited
16. Chapter 11: Clar Aromatic Sextet
17. Chapter 12: Renormalization in Chemistry
18. Chapter 13: Graphical Bioinformatics
19. Chapter 14: Beauties and Sleeping Beauties in Science
20. Appendix 1: Early Hostility toward Chemical Graph Theory
21. Appendix 2: Editorial Alert to Reviewers on Graph Theoretical Manuscripts
22. Appendix 3: Letter Relating to the Calculation of the Symmetry of a Graph
23. Appendix 4: On Detection of the Illegal Deck of Cards for Graph Reconstruction
24. Appendix 5: Solution to Halmos Handshake Problem
25. Appendix 6: The First Page of the Book of Euclid
26. Appendix 7: Full Quote of Immanuel Kant
27. Appendix 8: Construction of Canonical Labeling for Diamantane
28. Appendix 9: Twelve Different Canonical Labeling of Diamantane
29. Appendix 10: The Eigenvalues and Eigenvectors of Hexatriene
30. Appendix 11: The Coefficients of All Antisymmetric Molecular Orbitals of the Tetracene Derivative C₂
31. Appendix 12: Halogen Compounds and Their Boiling Points
32. Appendix 13: “News and Views” on Chemical Topology from Nature, November 15, 1974
33. Appendix 14: Conjugated Circuits for the Remaining Five Symmetry Nonequivalent Kekulé Valence Structures
34. Appendix 15: Hostile Reports of Anonymous Referees on Novelty in Graphical Bioinformatics
35. Appendix 16: The Computer Program for Exact Pairwise Protein Alignment
36. Appendix 17: An Input and Output of the Program VESPA
37. Appendix 18: List of Problems of Structural Chemistry Presented in This Book
38. Appendix 19: Rigorous Definitions and Descriptions of a Selection of Mathematical Concepts of Discrete
39. Appendix 20: QSAR Nightmare—No More
40. Appendix 21: Kekulé Valence Structures Weights
41. Appendix 22: Fries Rule Revisited

42. Appendix 23: Late Hostility toward Chemical Graph Theory
43. Back Cover
