

**1. Emerging Trends in Security, Cyber Crime and Digital Forensics in Context of Internet of Things** by Sameeka Saini, Abhilasha Chauhan, Luxmi Sapra, Gesu Thakur.

**2. Internet of Things (IoT): Security, Cybercrimes & Digital Forensics** by Ankit Garg, Anuj Kumar Singh.

**3. Emerging Security Threats and Challenges in IoT** by Priyank Parmar, Dr. Ravi Sheth.

**4. A Review on Security Frameworks and Protocols in Internet of Things** by Meenu Vijarana, Swati, Akshat Agarwal.

**5. Application of Artificial Intelligence for DDoS Attack Detection and Prevention on Cyber Physical Systems Using Deep Learning** by J. E. T. Akinsola, R. O. Abimbola, M. A. Adeagbo, A. A. Awoseyi, F. O. Onipede, A. A. Yusuf.

**6. Managing Trust in IoT using Permissioned Blockchain** by Rajesh Kumar, Dr. Rewa Sharma.

**7. Cyber Physical System Security** by Ankit Kumar Singh.

**8. Intrusion Detection Systems Apropos of Internet of Things (IoT)** by Abhilasha Chauhan, Sameeka Saini, Luxmi Sapra, Gesu Thakur.

**9. Intrusion Detection for The Internet of Things** by Vikas Kumar, Dr Mukul Gupta and Shubhika Gaur.

**10. Cybercrimes and Digital Forensics in Internet of Things** by Dr. Vinita Sharma.

**11. Security and Privacy for IoT-based Smart Cities** by Dr. Pawan Whig, Shama Kouser, Kritika Puruhit, Naved Alam, Jamia Hamdard, Arun Velu.

**12. Network Vulnerability Analysis for Internet of Things (IoT) Based Cyber Physical Systems (CPS) Using Digital Forensics** by J. E. T. Akinsola, F. O. Onipede, S. O. Osonuga, S. O. Abdul-Yakeen, R. O. Olopade, A. O. Eytayo, H. A. Badmus.
