

PART 1 Policies and Practices

Chapter 1 An Overview of National SME Policy – 2021

Muhammad Javed Afzal

Chapter 2 IMS Framework for N11 and D8 Countries

Muhammad Hammad, Ghulam Abbas, and Wasim Ahmed Khan

PART 3 Functional Reverse Engineering of

4 Design and Development of 3-Axis Wire Arc Additive Manufacturing Machine: Functional Reverse Engineering Approach

G. Hussain, Osama Al-Jamal, Adeel Ghafoor, Abrar Farooq, Usman Zahid, Iftikhar Ahmad, and Muhammad Iqbal

Chapter 5 Reverse Engineering of a 6 DOF Industrial Robotic Arm for Advanced Manufacturing Processes

Muftooh Ur Rehman Siddiqi, Riaz Muhammad, Yuchun Xu, Fatima Tu Zuhra, and Niaz Bahadur Khan

Chapter 6 Controller Design for a Six Degree of Freedom Parallel Robotic Machining Bed

Muhammad Faizan Shah, Zareena Kausar, and Muhammad Umer Farooq

Chapter 7 Surface Normal Trajectory Generation for Robotic-Based Machining Operation on Curved Surface

Anton. R. Ahmad, Said G. Khan, Syed H. Shah, and Chyi-Yeu Lin x Contents

PART 4 4th Industrial Revolution

Chapter 8 Applications of Digital Twins in the Development of a Predictive Maintenance System

Dan Noje and Radu Tarca

Chapter 9 Artificial Immune-Inspired Disruption Handling in Manufacturing Process

Zubair Ahmad Khan, Ihtisham Ul Haq, Shahbaz khan, and Muhammad Tahir Khan

Chapter 10 Cyber Security in Additive Manufacturing

Muhammad Qasim Zafar, Muhammad Bilal Khan, and Haiyan Zhao

Chapter 11 Metal Forming in Industry 4.0 Epoch

Volkan Esat

Chapter 12 3D Surface Reconstruction of Aluminum Alloy Arc Additive Manufacturing Parts Based on Focused Topography Measurement

Xiaoping Wang and Fengjun Zhang

PART 5 Production Philosophies and 4th Industrial Revolution

Chapter 13 Best Practices for Mitigating Supply Chain Risks in Industrial IoT

Lubna Luxmi Dhirani, Ali Akbar Shah, Qasim Arain, Bhawani Shankar Chowdhry, Abi Waqas, and Tanweer Hussain

Chapter 14 Machine Intelligence for Agile Manufacturing

S. Katyara, L. L. Dhirani, P. Long, T. Morell, F. O'Farell, C. Edmondson, and B. S. Chowdhry

Chapter 15 Role of Quantum Security in the Future of Smart Manufacturing
