

Table of contents	
Foreword	xxiii
Preface	xxv
1 Artificial Intelligence Disruption on the Brink of Revolutionizing HR and Marketing Functions	1
Akansha Mer and Amarpreet Singh Viridi	
1.1 Introduction	2
1.2 Research Methodology	4
1.2.1 Research Objectives	4
1.2.2 Data Collection	4
1.3 Artificial Intelligence in HRM	4
1.3.1 Recruitment	5
1.3.2 Engaging the Applicants and Employees	5
1.3.3 Orientation and Onboarding	6
1.3.4 Performance Appraisal	6
1.3.5 Training	7
1.3.6 Compensation	7
1.3.7 Employee Retention	8
1.4 Artificial Intelligence in Marketing	8
1.4.1 Creation of Customer Profiles/Market Segmentation	9
1.4.2 Cognizance of Consumers Purchase Behavior/Intention	10
1.4.3 Pricing	11
1.4.4 Content/Product/Service Recommendations/Search Optimization	11
1.4.5 Sales Prediction Based on Consumer’s Demographics	12
1.4.6 Virtual Assistants/Real-Time Conversations	12
1.4.7 Visual Searching	12
1.4.8 CRM	13
1.5 Discussion and Findings	13
1.6 Implication for Managers	14
1.7 Conclusion	15
References	16
2 Ring Trading to Algo Trading—A Paradigm Shift Made Possible by Artificial Intelligence	21
Aditi R. Khandelwal	
2.1 Introduction	22
2.2 Ring Trading	22
2.3 Features of Generation 1: Ring Trading	22
2.4 Generation 2: Shifting to Online Platform	24
2.5 Generation 3: Algo Trading	28
2.6 Artificial Intelligence	29
2.7 AI Stock Trading	30
2.8 Algorithmic (Algo Trading) Trading	31
2.9 Conclusion	31
References	32
3 AI in HR a Fairy Tale of Combining People, Process, and Technology in Managing the Human Resource	33
Jyoti Jain and Sachin Gupta	
3.1 Introduction	34
3.2 Problem Recognition	35
3.3 Journey of AI in HR “From Where Till What”	36
3.4 Work Methodology of AI in HR	39
3.5 Branches of AI in HR	39
3.5.1 Machine Learning	39
3.5.1.1 Variance Detection	39
3.5.1.2 Background Verification	40
3.5.1.3 Employees Abrasion/Attrition	40
3.5.1.4 Personalized Content	40
3.5.2 Deep Learning	40
3.5.2.1 Important Use of Deep Learning in HR Context	40
3.5.3 Natural Language Processing	41
3.5.4 Recommendation Engines	41

3.6 Implication Stages of AI in HR	41
3.6.1 Automate	42
3.6.2 Augment	42
3.6.3 Amplify	42
3.7 Process Model of AI in HR	43
3.8 Key Roles of AI in HRM	44
3.9 Broad Area of Uses of AI in HR	45
3.9.1 Recruitment	46
3.9.2 Interviews	46
3.9.3 Reduction in the Human Biases	46
3.9.4 Retention	47
3.9.5 AI in Learning and Advancement	47
3.9.6 Diminish Gender Bias Equality	47
3.9.7 Candidate Engagement	48
3.9.8 Prediction	48
3.9.9 Smart People Analytics	48
3.9.10 Employee Experience	48
3.10 Dark Side of AI	50
3.10.1 Technical Requirements and Acceptance	51
3.10.2 Cost Involvement	52
3.10.3 Machine Biases	52
3.10.4 Job Losses	52
3.10.5 Emotional Turmoil	53
3.10.6 Fake Identity	53
3.10.7 Having an Audit Trail	53
3.10.8 Question on Decisions	54
3.11 Conclusion	54
References	55
4 Effect of Artificial Intelligence on Human Resource Profession: A Paradigm Shift	57
Jyoti Dashora and Karunesh Saxena	
4.1 Introduction	58
4.2 Evolution of Artificial Intelligence	59
4.2.1 Phases of Artificial Intelligence	61
4.3 Changing Role of Human Resource Professionals	61
4.4 Effect of Artificial Intelligence on Human Resource Profession	63
4.4.1 Symbiotic Relationship Between Artificial Intelligence and Human Resource Profession	67
4.5 Limitations of Artificial Intelligence in HRM	68
4.6 Conclusion	69
References	70
5 Artificial Intelligence in Animal Surveillance and Conservation	73
Devendra Kumar and Saha Dev Jakhar	
5.1 History	74
5.2 Introduction	74
5.3 Need of Artificial Intelligence	75
5.4 Applications of AI in Animal Surveillance and Conservation	76
5.4.1 In Livestock Monitoring	77
5.4.1.1 Chip and Sensor (RFID)	78
5.4.1.2 Microchip (GPS Tracker)	79
5.4.1.3 Mobile Application	79
5.4.1.4 Drone With Thermal Camera	79
5.4.2 In Wildlife Animal Monitoring	80
5.4.2.1 Motion Sensor Camera	80
5.4.2.2 GPS Base Animal Tracker	81
5.4.2.3 Smart Camera (Thermal Camera)	82
5.4.2.4 Satellite Base Tag (Ringing, Callers)	82
5.4.2.5 Acoustics/Sound Monitoring	82
5.4.2.6 Radio Transmitter (Transponder)	83
5.5 Some Other Tools of Artificial Intelligence	84

5.5.1 Computer Software and Application	84
5.5.1.1 Wildbook Comb (Bot)	84
5.5.1.2 Betty	84
5.5.1.3 Sensing Clues	84
5.5.2 Resolve's Trail Guard	84
References	85
6 Impact of Artificial Intelligence on Digital Marketing	87
Giuseppe Granata and Vincenzo Palumbo	
6.1 Introduction	88
6.2 The Impact That AI Has on Marketing	89
6.2.1 The Data of Artificial Intelligence in Marketing	90
6.2.1.1 The Audience: Highly Targeted Marketing Segmentation	92
6.2.1.2 Journey to: The Customer's Road	92
6.2.1.3 Offer to: Advice-Based Behavioral Marketing	92
6.2.2 Number of Efficiency Powered by the AI Global Consumer Statistics	94
6.2.3 Cloud Computing: How it Interfaces to Marketing Thanks to Big Data	95
6.2.4 AI World is Made Also With BOT. Exactly What Are BOT?	98
6.2.5 The Chatbot: Service Robot as Support of Customer Care	99
6.3 The Community Regulation "GDPE" and Artificial Intelligence: Here's How Technology is Governed	101
6.4 The Case Study Estée Lauder	103
6.5 Conclusion	104
References	105
7 Role of Artificial Intelligence in Transforming the Face of Banking Organizations	109
Shweta Solanki, MeeraMathur and BhumikaRathore	
7.1 Objectives	110
7.2 Introduction	110
7.2.1 Three Stages of Artificial Intelligence	111
7.2.2 Different Types of Artificial Intelligence	111
7.2.3 Trends and Need of Artificial Intelligence in Context of Indian Banking	111
7.2.4 Uses and Role of Artificial Intelligence in Banks in the Opinion of	113
7.2.5 Importance of Artificial Intelligence in Banking Practices and Operation	114
7.2.5.1 Chat Bots	115
7.2.5.2 Analytics	115
7.2.5.3 Robotics Process Automation	115
7.2.5.4 Generating Reports	115
7.2.6 Impact of AI in Banking Operations	116
7.2.6.1 Front Office Operations/Customer Centric	116
7.2.6.2 Middle Office/Operation Centric	116
7.2.6.3 Back Office/Decision Centric	116
7.2.7 Future of Artificial Intelligence in Banks	116
7.3 Existing Technology	117
7.4 Methodology	117
7.4.1 Search Process	118
7.4.2 Selection Criteria and Review Process	118
7.5 Findings	118
7.6 Conclusion	119
7.7 Suggestions	119
References	120
8 Artificial Intelligence and Energy Sector	123
Oum Kumari R	
8.1 Introduction	123
8.1.1 Increase in the Emission of Greenhouse Gases	124
8.1.2 Increase in the Financial Burden	124
8.1.3 Huge Power Deficit	124
8.1.4 Water Scarcity	124
8.2 Challenges of Indian Power Sector	125
8.2.1 Global Warming	125
8.2.2 Depletion of Coal	125

8.2.3 Huge Financial Stress	126
8.2.4 Power Crisis	126
8.2.5 Health Issues	127
8.2.6 Plant Load Factor	127
8.2.7 Transmission and Distribution (T&D) Losses	128
8.3 Artificial Intelligence for Energy Solutions	128
References	129
9 Impact of Artificial Intelligence on Development and Growth of Entrepreneurship	131
Pooja Meena, Ankita Chaturvedi and Sachin Gupta	
9.1 Introduction	132
9.2 Entrepreneurship	133
9.3 Artificial Intelligence	133
9.4 Artificial Intelligence and Entrepreneurship	134
9.5 Process of Entrepreneurship	135
9.5.1 Entrepreneurial Recognition	135
9.5.2 Human Capital	136
9.5.3 Technology Requirements and Idea Generation	136
9.5.4 Opportunity Recognition Phase	136
9.5.5 Opportunity Development	136
9.5.6 Resource Requirements	136
9.5.7 Entrepreneurship	137
9.5.8 Financial Resources	137
9.5.9 Opportunity Exploitation	137
9.5.10 Knowledge Networks	137
9.5.11 Validation of the Product	137
9.6 The Need of Artificial Intelligence for Business Development	138
9.6.1 Consumer Satisfaction	138
9.6.2 Cybercrime Protection	138
9.6.3 CRMs	139
9.6.4 AI-Based Analytics	139
9.6.5 Demand and Supply Management	139
9.6.6 Improved Maintenance and Better Equipment Safety	139
9.6.7 Searching Capable Employees	140
9.6.8 Virtual Assistance for Sales	140
9.6.9 Improvements With Self-Driven Technologies	140
9.7 Some Important Facts About AI	141
9.8 Opportunities for Artificial Intelligence in Business	141
9.8.1 AI in the Field of Marketing	141
9.8.2 For Track Competitors	142
9.8.3 Make Less Work of Huge Data	142
9.8.4 AI as Customer Support System	142
9.8.5 Artificial Intelligence in CRMs	143
9.9 Further Research Possibilities	144
9.10 Conclusion	144
References	145
10 An Exploratory Study on Role of Artificial Intelligence in Overcoming Biases to Promote Diversity and Inclusion Practices	147
Bhumika Rathore, Meeera Mathur and Shweta Solanki	
10.1 Introduction	148
10.1.1 Objectives of the Study	149
10.1.2 Background of the Study	149
10.1.3 Relevance and Scope of the Study	149
10.2 Research Gaps Identified	150
10.3 Experiential Framework	150
10.3.1 Hypothetical Research Model	151
10.3.2 Methodology	151
10.3.3 Search Process	152
10.3.4 Selection Criteria and Review Process	152
10.3.5 Systematic Representation of Literature Review	153

10.3.6 Understanding Workforce Diversity	154
10.3.7 Benefits and Challenges of Workforce Diversity	155
10.3.8 Biases as Obstacles in Diversity and Inclusion Practices	157
10.3.9 AI as a Tool to Prevent Bias and Promote D&I Practices	159
10.4 Synthesis of the Study	161
10.5 Managerial Implications and Conclusion	161
References	163
11 Artificial Intelligence: Revolutionizing India Byte by Byte	165
Priyanka Jingar, Anju Singh and Sachin Gupta	
11.1 Introduction	165
11.2 Objectives of the Chapter	166
11.3 AI for India's Transformation	167
11.4 Economic Impact of Artificial Intelligence	169
11.5 Artificial Intelligence and its Impact on Various Sectors	170
11.5.1 AI in Healthcare	171
11.5.2 AI in Banking and Finance	172
11.5.3 Artificial Intelligence in Education	173
11.5.4 Artificial Intelligence in Agriculture Sector	175
11.5.5 Artificial Intelligence in Smart Cities and Infrastructure	176
11.5.6 AI in Smart Mobility and Transportation	177
11.6 SWOT Analysis of Artificial Intelligence	178
11.6.1 Strength	178
11.6.2 Weakness	179
11.6.3 Opportunity	179
11.6.4 Threat	180
11.7 Conclusion	181
References	181
12 AI: A New Strategic Method for Marketing and Sales Platforms	183
Ravindar Meena, Ashmi Chhabra, Sachin Gupta and Manoj Gupta	
12.1 Introduction	184
12.2 Objectives of the Chapter	184
12.3 Importance of Artificial Intelligence	185
12.4 Research Methodology	186
12.5 AI: The Ultimate B2B Growth Accelerator	187
12.5.1 AI Can Help Get Better Leads	187
12.5.2 Predictive Analysis Improves Pitches	188
12.5.3 Better Upsell Opportunities	188
12.5.4 AI is an Excessive Digital Assistant	188
12.5.5 AI and Improved Customer Conversations	188
12.6 The Existing Methods of Marketing and Sales	189
12.6.1 Being Lazy About Self-Promotion	189
12.6.2 Avoiding Networking	189
12.6.3 Bridging the New Product Launch Gap	190
12.7 AI Will Shape Marketing Strategies of Startup in the Future	190
12.7.1 Winning the Loots of Artificial Intelligence	192
12.7.2 The Control of Artificial Intelligence and Recorded Data	192
12.7.3 Artificial Intelligence the Game Changer for Small Businesses	192
12.7.4 AI Selling and Marketing for E-Commerce	192
12.7.5 Marketing Computerization to Modified Knowledge	193
12.8 Artificial Intelligence is Shaking up the Job Market	193
12.9 The Role of Artificial Intelligence and Machine Learning on Marketing	195
12.9.1 Traditional and Modern Marketing	196
12.10 Conclusion	197
References	198
13 Brain and Behavior: Blending of Human and Artificial Minds Toward Stress Recognition and Intervention in Organizational Well-Being	201
Manisha D. Solanky and Sachin Gupta	
13.1 Introduction	202

13.2	Research Methodology	203
13.3	Fundamentals of Stress	203
13.3.1	Stress at Workplace	205
13.3.2	Symptoms and Outcome of Stress	206
13.4	Embracing AI Opportunity in Stress Management Interventions	207
13.5	Existing Technology for Stress Recognition	208
13.5.1	Smart Detection Devices	209
13.5.2	Stress Detection Through Physiological Signals	209
13.5.3	Sensor-Based Detection	210
13.5.4	Deep Learning Approaches for Stress Detection	210
13.5.5	Stress Detection Through Biofeedback Systems	210
13.5.6	Stress Detection Through Virtual Reality	212
13.5.7	Stress Detection Through Keyboard Strokes	213
13.5.7.1	Chatbots for Depression, Stress, and Anxiety	213
13.5.7.2	WYSA Chatbot	214
13.5.8	Stress Intervention Based on Human-Technology Interaction	214
13.5.8.1	Individual Level of Intervention	215
13.5.8.2	Organization Level Intervention	215
13.5.8.3	Devices Supporting Stress Interventions	216
13.6	Discussion and Findings	218
13.7	An AI—Eye to the Future	220
13.7.1	Implications to Managers	220
13.7.2	Implication to the Entrepreneurs	221
13.8	Conclusion	222
13.9	Limitations of AI in Human Resource Management	223
13.10	Conclusion	223

19.3 Role of Artificial Intelligence in Shaping Indian Banking Industry	330
19.3.1 Detection of Anti-Money Laundering Pattern	330
19.3.2 Chatbots	330
19.3.3 Algorithmic Trading	331
19.3.4 Fraud Detection	332
19.3.5 Customer Suggestions	332
19.3.6 Personalized Banking	332
19.3.7 Digital Payments	333
19.3.8 Robo Advisors	334
19.4 Influence of Artificial Intelligence on Indian Banking Industry	334
19.5 Reasons Behind Elongated Adoption of Artificial Intelligence in Banking Industry	336
19.5.1 Cut-Throat Competition in Banking Sector	336
19.5.2 Push for Process-Driven Services	336
19.5.3 Introduction of Self-Service at Banks	336
19.5.4 Customer Demand for More Customized Solutions	336
19.5.5 Creating Operational Efficiencies	336
19.5.6 Increasing Employee Productivity	337
19.5.7 To Help Focus on Profitability and Compliance	337
19.5.8 Use of Robotics Software	337
19.5.9 To Reduce Fraud and Risk Associated With Security	337

19.5.10 To Manage Large Information and Derive Value Insight	337
19.5.11 To Bring in Effective Decision-Making	338
19.6 Indian Banks Using Artificial Intelligence	338
19.6.1 State Bank of India	338
19.6.2 Bank of Baroda	339
19.6.3 Allahabad Bank	339
19.6.4 Andhra Bank	339
19.6.5 YES Bank	339
19.6.6 Housing Development Finance Corporation (HDFC)	339
19.6.7 Industrial Credit and Investment Corporation of India (ICICI)	340
19.6.8 Axis Bank	340
19.6.9 Canara Bank	340
19.6.10 Punjab National Bank	340
19.6.11 IndusInd Bank	340
19.6.12 City Union Bank	341
19.7 Pros and Cons of Artificial Intelligence in Banking Sector	341
19.7.1 Pros	341
19.7.1.1 Tracking of Transactional and Other Data Sources	341
19.7.1.2 Identification of Pattern Which May Be Eluded by Human Observers	341
19.7.1.3 Risk Assessment	341
19.7.1.4 Secure and Swift Transaction	342
19.7.1.5 Protection of Personal Data	342
19.7.1.6 Hedge Fund Trading and Management	342
19.7.1.7 Quick Transaction	342
19.7.1.8 Reduce Cost and Time	342
19.7.1.9 Upgraded Personnel Effectiveness and Customer Observation	342
19.7.1.10 Enhanced Banking Services	343
19.7.2 Cons	343
19.7.2.1 High Cost	343
19.7.2.2 Bad Calls	343
19.7.2.3 Distribution of Power	343
19.7.2.4 Unemployment	343
19.8 Intelligent Mobile Applications Drive Growth in Banking	344
19.8.1 Investment	344
19.8.2 Accounting	344
19.8.3 Banking Apps	345
