

Applications of Metabolic Engineering in the Production of Fermented Foods and Food Ingredients;
Dimitris Charalampopoulos and Colin Webb

Isolation, Improvement, and Preservation of Microbial Cultures; *Syed G. Dastager*

Physical and Chemical Factors Affecting Fermentation in Food
Processing; *Antonella Amore and Vincenza Faraco*

Upstream Operations of Fermentation Processes; *Parameswaran Binod, Raveendran Sindhu, and Ashok
Pandey*

Theoretical Tools to Predict Physicochemical Properties of
Industrial Foods and Cultivation Media; *André Lebert*

Characterization of Bioreactors Using Computational Fluid
Dynamics; *Christophe Vial and Youssef Stiriba*

Laboratory and Industrial Bioreactors for Submerged
Fermentations; *Parvinder Kaur, Ashima Vohra, and Tulasi Satyanarayana*

Laboratory and Industrial Bioreactors for Solid-State
Fermentation; *José Angel Rodríguez-León, Daniel Ernesto Rodríguez-Fernández, and Carlos Ricardo
Soccol*

Downstream Operations of Fermented Products; *Júlio César de Carvalho, Adriane Bianchi Pedroni
Medeiros, Daniel Ernesto Rodríguez-Fernández, Luiz Alberto Júnior Letti, Luciana Porto de Souza
Vandenberghe, Adenise Lorenci Woiciechowski, and Carlos Ricardo Soccol*

Instrumentation and Control of Industrial Fermentative Processes; *Alexandre Francisco de Moraes Filho,
Alysson Hikaru Shirai, Wilerson Sturm, and Dario Eduardo Amaral Dergint*

Fermented Foods and Human Health Benefits of Fermented
Functional Foods; *Juliano De Dea Lindner, Ana Lúcia Barretto Penna, Ivo Mottin Demiate, Caroline Tiemi
Yamaguishi,
Maria Rosa Machado Prado, and José Luis Parada*

Industrial Fermentation for Production of Alcoholic Beverages; *Saurabh Jyoti Sarma, Mausam Verma,
and Satinder Kaur Brar*

Production of Dairy Products; *Luciana Porto de Souza Vandenberghe, Caroline Tiemi Yamaguishi, Cristine
Rodrigues,
Maria Rosa Prado, Michele Rigon Spier, Adriane Bianchi Pedroni Medeiros, and Júlio César de Carvalho*

Dairy and Nondairy Probiotic Products and Beverages; *Jean-Luc Tholozan and Jean-Luc Cayol*

Bioadditives Produced by Fermentation; *Juliano Lemos Bicas, Mário Roberto Marostica Junior Francisco Fábio Cavalcante Barros, Gustavo Molina, and Gláucia Maria Pastore*

Microalgae for Food Production; *Jorge Alberto Vieira Costa and Michele Greque de Morais*

Biorefinery Concept Applied to Valorization of Agro-Food
Coproducts and Wastes: Integrated Process for Waste Recycling
and Effluent Treatment; *Carlos Ricardo Soccol, Susan Grace Karp, Paula Fernandes de Siqueira, Cássia Tiemi Nemoto Sanada, Vanete Thomaz-Soccol, and Ashok Pandey*
