

Table of Contents

Principles, Materials, Gases, and Machinery for MAP

Principles of MAP and Definitions of MAP, CA, and AP. *Ioannis S. Arvanitoyannis*

Materials (Films), Gases, and Machinery (Techniques) for MAP. *Ioannis S. Arvanitoyannis and Achilleas Bouletis*

Safety and Quality Control of MAP Products

Safety and Quality Control of Modified Atmosphere Packaging Products. *Ioannis S. Arvanitoyannis and Konstantinos Kotsanopoulos*

Applications of MAP in Foods of Animal Origin

Fish and Seafood. *Ioannis S. Arvanitoyannis and Alexandros Ch. Stratakos*

Fresh and Processed Meat and Meat Products. *Ioannis S. Arvanitoyannis and Alexandros Ch. Stratakos*

Poultry. *Ioannis S. Arvanitoyannis and Alexandros Ch. Stratakos*

Milk and Dairy Products. *Ioannis S. Arvanitoyannis and Georgios Tziatzios*

Applications of MAP in Foods of Plant Origin

Cereals. *Ioannis S. Arvanitoyannis and Konstantinos Kotsanopoulos*

Minimally Processed Vegetables. *Ioannis S. Arvanitoyannis and Achilleas Bouletis*

Fruits. *Ioannis S. Arvanitoyannis, Maria Savva, and Nikoletta K. Dionisopoulou*

Implementation of Modified Atmosphere Packaging in the Shelf-Life Extension of Bakery Products. *Ioannis S. Arvanitoyannis and Konstantinos Bosinas*

Other Applications of MAP

Ready-to-Eat Foods. *Ioannis S. Arvanitoyannis and Maria Andreou*

Miscellaneous Foods (Coffee, Tea, Beer, Snacks). *Ioannis S. Arvanitoyannis*

Active Packaging and Its New Trends

Active and Intelligent Packaging. *Ioannis S. Arvanitoyannis and Georgios Oikonomou*

Adaptations of Food Packaging Trends via Nanotechnology. *Muhammad Imran, Anne-Marie Revol-Junelles, and Stéphane Desobry*

Bioactive Packaging Technologies with Chitosan as a Natural Preservative Agent for Extended Shelf-Life Food Products. *Vasiliki I. Giatrakou and Ioannis N. Savvaidis*

Consumer Behavior/Sensory Analysis and Legislation

Sensory Analysis and Consumer Search of MAP Acceptability. *Ioannis S. Arvanitoyannis, Nikoletta Manti, and Nikoletta K. Dionisopoulou*

EU, U.S., and Canadian Legislation Related to Packaging Coming in Contact with Foods. *Ioannis S. Arvanitoyannis and Persephoni Tserkezou*

Conclusions and New Trends. *Ioannis S. Arvanitoyannis*
