

# Table of Contents

Conversion Operations.-

Mixing - Determining Mixing Parameters.-

Filtration I - Determining Filterability of Suspensions.-

Filtration II - Using a Plate-and-Frame Filter.-

Centrifugation - Separating Cream from Milk

centrifugation - Separating Cream from Milk.-

Concentration - Direct Osmotic Concentration of Liquid Foods.-

Osmotic Dehydration - Vacuum Impregnation of Fruit.-

Expression - Extraction of Pumpkin Oil.-

Preservation Operations.-

Dehydration I - Tray Drying of Apples .-

Dehydration II - Mass Balances on a Combined Air-Microwave Drying Process.-

Spray Drier - Atomization of Milk.-

Operating a Fluid Bed Drier.-

Freeze Drying Foods.- Determining Freezing Times of Food with a Plate Freezer.-

Comparing Air Blast and Fluidized Bed Freezing.-

Pasteurization with a Plate Heat Exchanger.-

Sterilization in Cans.-

Food Processing Operations.-

Ingredients in Infant Foods –

Pregelatinized Amaran Flour Using a Drum Dryer.-

Wheat Crisps - Extrusion Cooking Technology.-

Semolina - Milling and Sieving.-

Semi-Hard Cheese - Cheese Making Technology.
