Preface

Chapter 1 Direct Digital Design of PIDF Controllers with Complex Zeros for DC-DC Buck Converters

Stefania Cooghi, Lorenzo Ntogramatzidis, Fabrizio Padula and Gabriele Grandi

Chapter 2 Suppression Research Regarding Low-Frequency Oscillation in the Vehicle-Grid Coupling System using Model-Based Predictive Current Control..

Yaqi Wang and Zhigang Liu

Chapter 3 Supervisory Control for Wireless Networked Power Converters in Residential Applications.

SM. Rakiul Islam, Sung-Yeul Park, Shaobo Zheng, Song Han and Sung-Min Park

Chapter 4 Analysis of Intrinsic Switching Losses in Super junction MOSFETs under Zero Voltage Switching

Maria R. Rogina, Alberto Rodriguez, Diego G. Lamar, Jaume Roig German Gomez and Piet Vanmeerbeek

Chapter 5 Disturbance Rejection Control Method for Isolated Three-Port Converter with Virtual Damping

Jiang You, Mengyan Liao, Hailong Chen, Negarch Ghasemi and Mahinda Vilathgamuwa

Chapter 6 Analysis, Modeling and Control of Half-Bridge Current-Source Converter for Energy Management of Super capacitor Modules in Traction Applications.....
Jorge Garcia, Pablo Garcia. Fabio Giulii Capponi and Giulio De Donato

Chapter 7 High Efficiency Solar Power Generation with Improved Discontinuous Pulse Width Modulation (DPWM) Overmodulation Algorithms.
Lan Li, Hao Wang, Xiangping Chen, Abid Ali Shah Bukhari, Wenping Cao, Lun Chai and Bing Li

Chapter 8 Methods of Modulation for Current-Source Single-Phase Isolated Matrix Converter in a Grid-Connected Battery Application

Goh Teck Chiang and Takahide Sugiyama

Chapter 9 Challenges and Design Requirements for Industrial Applications of AC/AC Power Converters without DC-Link.
Pawel Szczesniak

Chapter 10 Nonsingular Terminal Sliding Mode Control Based on Binary Particle Swarm Optimization for DC-AC Converters
En-Chih Chang, Chun-An Cheng and Lung-Sheng Yang

Chapter 11 Fault Investigation in Cascaded H-Bridge Multilevel Inverter through Fast Fourier Transform and Artificial Neural Network Approach.
G. Kiran Kumar, E. Parimalasundar, D. Elangovan, P. Sanjeevikumar, Francesco Lannuzzo and Jens Bo Holm-Nielsen

Chapter 12 Analysis and Control of Electrolytic Capacitor-Less LED Driver Based on Harmonic Injection Technique.....
Mahmoud Nassary, Mohamed Orabi, Manuel Arias, Emad M. Ahmed and El-Sayed Hasaneen

Chapter 13 A Universal Mathematical Model of Modular Multilevel Converter with Half-Bridge.....

Ming Liu, Zetao Li and Xiaoliu Yang
